

ENHANCING THE BATHROOM SPACE

GRAFF's launches M.E. Faucet collection – a touch of élan and finesse to the entire space. The sleek faucet is entirely developed in brass, featuring extremely low nickel and lead content. Along with the beauty, the "green" standards are marked well in place as the product complies with the most restrictive drinking water regulations and the criteria required for the protection of health and the environment. It is now available in more than 16 finishes, including the elegant and extremely long-lasting Or'osa PDV and the Matt Black, a charming version of the Architectural Black powder coating finish.

SUPERIOR QUALITY DOORS AND WINDOWS

Ottimo introduces – Superior – a premium collection of bespoke external doors and windows by Gorlini in India. The choice of high-performing timber, aluminium, steel responds to varied requirements. All the raw materials comply with eco-sustainability requirements. The collection uses glued laminated timber profile (68 mm door/ 68 mm frame); glazing beads with no visible nails or screws, fixed with the glassblock invisible system; external seal for insulated glazing instead of silicone; thermo insulated threshold with thermal break; and standard and special finishes. The collection also comes with burglar-proof hardware with concealed hinges.
