

Copper Plate

Cooper Wiring Devices' CuVerro wall plates and switches are made with EPA-registered CuVerro antimicrobial copper surfaces that, when cleaned regularly, deliver continuous and ongoing antibacterial action. These alloys also offer a durable and attractive device design. **Circle 495**

It's Raining, It's Pouring

With its futuristic design look, the Aqua-Sense shower system is a full sensory experience, complete with LED colored lighting, music and an intense rainfall water flow. Available as a wall-mounted waterfall, wall-mounted cascade and rainfall showerhead, users can choose between an embedded, thin profile or full water blade effect. **Circle 496**
