

Smokeless Kitchens

Many studies point out that in India cooking involves lot of sautéing and frying that produces harmful fumes. Opting for kitchen chimney is a smart way of handling pollution in the kitchen. It not only removes the harmful smoke and fumes, but also ensures that the furniture and the appliances in the kitchen remain in pristine condition. **Faber** has introduced a new 3D Chimney with T2S2 technology with three way suction. Its unique filters on the sides of the hood extract any smoke that escapes the bottom vent. This technology ensures kitchen is free of smoke and grease making it appear neat and hygienic. Available in black and SS options, 3D hoods come adapted to latest designs and finishes from Europe.

Innovative Faucet

GRAFF, a brand that stands out for its new ideas, unique achievements and exclusive solutions in the faucets industry has launched LUNA. This sleek singular faucet has a distinctive shape, mirror-like finish and a surface with high reflective effect. Equipped with an aerator, the faucet has a flow rate of 5 litres per minute with a 3 bar pressure. Available with wall-mounted or deck-mounted handles as a lavatory faucet, the collection also includes an original shower column recalling the curve of the spout. This faucet has special Steelnox® finish, perfectly fingerprint-proof and very high-performing. The powder coating process, in fact, makes the finish extremely resistant to scratching and chipping as well as to abrasions, corrosions, discoloration and other problems of wear.
