

#### 5. High Line from CF Stinson

High Line is a coordinated group of performance fabrics that combine balanced geometry, a crisp modern aesthetic and pure vibrant color. It showcases technical savvy and unique constructions that work together to create a bold and sophisticated collection. High Line consists of eight textiles and 53 colors, which can be used to create durable spaces, from seating for a modern office setting to lounge furniture in an educational project.

#### 7. AllSew from Rich Brilliant Willing

AllSew is a modular LED lighting solution tailored for workspaces, and suitable for a wide range of indoor contract settings, from hospitality and dining to retail and residential interiors. Made from only the essential components, AllSew's weightless volume and pared down design takes inspiration from the material language of kites: lightweight, collapsible structures that combine technical fabrics and composite rods.

#### 6. Harley Collection from GRAFF

The design of this contemporary collection was derived from the stylings of classic motorcycles, fusing an industrial aesthetic with detail work nostalgic of the all-American icons. The Harley collection includes one-, two- or three-hole versions of the sink, bathtub and bidet; wall, floor or deck-mounted models; and a linear lever option. A first for the brand, the Harley Collection portfolio of offerings includes a two-hole lavatory faucet ideal for narrow spaces, as well as powder or laundry rooms.

#### 8. Stille from Standard Issue

Stille is a bright, modern collection of occasional tables and easy-to-assemble shelving units while adding contemporary sophistication with its architectural lines. It was inspired by the functionality and timelessness of the Abstracta System, initially developed by midcentury Danish architect Poul Cadovius. The collection is comprised of five different archetypes: bedside tables, side tables, coffee tables, media consoles and a range of multi-purpose shelving units.
