

GST BENEFITS ON FAUCETS

CERA, India's leading home solutions provider, has taken the lead by passing on the benefit of reduction in GST rate on faucets to its customers by reducing the MRP of faucets. "We are happy to announce that we are passing on GST benefits to customers.

We have already reduced the MRP of our Faucets", says Atul Sanghvi, Executive Director, CERA. The brand has state-of-the-art manufacturing plant for faucets in Kadi, adjacent to its sanitaryware plant. The faucet plant is equipped with low pressure die casting machines, robotic polishing, automatic chrome plating unit and also 3D printing. "CERA is now offering 15 years' warranty on its faucets, an industry-first in India," adds Atul Sanghvi.

EXPRESSIVE WALLS

Berger Paints India Limited, has introduced Express Painting, that provides faster, cleaner and better painting experience, as one of its finest technologies innovated, so far in the paint sector. This new method gives an all new experience with quick painting time, no dust and unpleasant odour. All the hassle made while colouring the walls, like scrubbing the wall manually, with occasional spilling of paint leaves stains and there is no proper clean-up done by the workers. This new express painting professionals guarantees hassle-free painting within an hour or two, cleaning all the mess and no stains, as the professionals will shift all your furniture and again relocate it after the work is done. So, go ahead and get your walls painted.

DESIGN TO PERFECTION

GRAFF, presents new elegant kitchen mixer, a faucet line that furnishes the bar and the kitchen spaces.

The latest innovation is the Sospira Collection, that is inspired by the silhouette of bridge, and features clean, sleek, curvilinear lines that can suit modern kitchen and bars. Available in four varied finishes—polished chrome, brushed nickel, polished nickel and olive bronze. It has both a single-hole and bridge options. The single-hole has pull-down spray head with dual spray and stream water flow functions. The bar application has latest in-house small-space design.
